[*From our Extra of Yesterday.*]

Arrival of the U.S.S. Shubrick

Halleck Commander-in-Chief.

THE REBELS IN INDIANA!

GREAT BREAK AT THE CALIFORNIA STATE PRISON.

The U. S. steam revenue cutter Shubrick, bringing Victor Smith, Collector of the Puget Sound District, arrived here this morning shortly before 11 o'clock from Port Angelos, having left San Francisco for that port on the 25th inst., at 7 P. M.

The Shubrick, which is now attached to the Puget Sound District, comes up in charge of 2d Lieut. Wilson, commanding, Capt. W. C. Pease being temporarily detained in San Francisco by severe illness.

At noon on the 22d inst. 200 prisoners made their escape from the California State prison. They seized the Lieut. Gov. of the State and placed him in the front ranks to prevent the guard from firing. One of the guards was about to fire a load of grape from a cannon when the Lieut. Gov. cried "For God's sake don't shoot." The guard paused for an instant and the next moment was thrown over a precipice by the convicts and his gun and gun-carriage after him.

Six of the prisoners were killed and 26 wounded, and 31 recaptured. The country people and authorities are in pursuit of those still at large. The Lieut. Governor was made to accompany the ruffians for several miles, but was at last liberated and returned safely to the prison.

The Texan guerrillas are hovering about New Orleans. British armed vessels at that port omitted the usual complimentary salutes on the 4th of July.

NEW YORK, July 18.—Major Gen. Butler at New Orleans has sequestrated the property of Gen. Twiggs, to be held to await the action of the United States.

CAIRO, July 18.—Henderson, Ky., was taken possession of by small bands of rebels yesterday. It is also reported that they have captured Evansville.

CAIRO, July 19.—Two citizens of Newburg, Ind., who acted as guides to the rebels in their raid upon that place, after the rebels recrossed, were killed by the Federals.

CHICAGO, July 18.—The Nashville *Union* of the 16th, speaking of the fight at Murfreesboro, a few days ago, in which the Michigan regiment was taken completely by surprise, says they were in the hands of the enemy almost before the guns were fired. The camp of the Third Minnesota was miles away from the Michigan camp. Our killed number from 80 to 100, with a number of wounded. Hewett's battery fought gallantly, until the ammunition was entirely spent. Our officers will be taken South, probably to Chattanooga. The privates were paroled.

CINCINNATI, July 19.—The Rebel raid into Indiana and the threatening aspect of affairs in Kenturky have created considerable alarm in this city. Yesterday it was believed that an expedition against this city was being organized on the south side of the river. Many persons strongly impressed with this belief sent off their specie at night The excitement is still high, but people are more temperate than in the morning. After reasoning among themselves, several have satisfied themselves that Morgan's men will hardly venture to the river or near Cincinnati. Covington and Newport are much more intensely excited than this city.

NEW YORK, JULY 19th.—The *Herald's* Washington dispatch claims authority in saying that General Halleck does not come to Washington as Commander-in-Chief. It is believed that Secretary Stanton will retire and that President Lincoln will appoint Gen. Banks as Secretary of War, and Gen. Halleck as military adviser.

WASHINGTON, July 23.—The following order has been published:

EXECUTIVE MANSION, July 11.

It is ordered that Major-General Halleck be assigned the command of the whole land forces of the United States, and shall be General-in-Chief, and that he repair to the Capitol so soon as he can with safety to positions. Operations within the Department are now under his special charge.

ABRAHAM LINCOLN.

LOUISVILLE, July 23.—1000 rebel cavalry are reported to be near Richmond, Tenn. Trains from Louisville for Nashville yesterday went no further than Mitchellsville, in consequence of this report, but were unable to ascertain the truth.

1000 cavalry and infantry from Indiana arrived at Henderson this morning. Gunboats have also gone up Green river with a considerable force to protect the Union residents. Gen. Smith telegraphs from Sanderson that he is still pursuing Morgan.

It is now positively known that the President, under the advice of Gen. Scott, and with the acquiescence of Gen. McClellan, has called Gen. Halleck to Washington, to act as General-in-Chief of the armies of the United States. He will have control of all operations in the field, thus relieving Secretary Stanton from his official business. Gen. Halleck left St. Louis for this city last evening, accompanied by part of his staff.

WASHINGTON, July 23.—The Secretary of War and General Halleck held a long consultation in the War Department to-day. A portion of the time Generals Pope and Burnside were with them. There is a great repugnance in official circles to the idea of drafting, the impression here being that the President's call for 300,000 volunteers is being responded to throughout the country with an alacrity that promises to secure the whole number in less time than was anticipated when the call was made.

All is quiet on the Potomac.

It is rumored that Stonewall Jackson was defeated by Siegel.

Gold is decreasing in value in New York.

The rebel gunboat Arkansas ran through the whole Federal fleet on the Mississippi, injuring several of the boats badly, and reaching the shelter of the Vicksburg guns.

It is understood that McClellan remains in command in Virginia.

The New Orleans fleet has been ordered to James River.

England has recognised Italy as a kingdom.

The U. S. Congress has adjourned.

Later from Mexico.

We have dates from the city of Mexico to the 9th July.

On the 12th June, Gen. Zuragoza addressed a note to Gen. Lorencez, saying he had reason to believe that the latter had protested against the conduct of Saligny, who had deceived him, and offering him an opportunity to retreat honorably. Lorencez replied, simply saying that Saligny had the sole power of treating. On the 14th June, Zuragoza prepared to attack Orizaba, but was himself attacked, and completely routed.

On the 15th June, Almonte issued a proclamation, in which he says that 150 French troops had defeated 4000 Mexicans.

A party of guerrilleros attrcked a French train on the way from Vera Cruz to Orizaba, killed five French officers, 600 mules, and burned all the goods which they did not carry off.

[*For continuation see third page.*]

Vancouver's Island.

COLONIAL SECRETARY'S OFFICE, 9th June, 1862.

NOTICE IS HEREBY GIVEN THAT instalments upon the land specified in the Schedule hereunder written are in arrears, and that if such instalments are not paid on or before the 11th day of August, at the Land Office, the respective lands in respect of which instalments are then due will on that day be absolutely forfeited, and that all land forfeited on that day will be put up at auction at the upset price of 4s 2d. an acre, on the 12th day of August, 1862, and disposed of to the highest bidder.

Notice is given to the holders of the undermentioned sections that so much of the instalments as may be required for the purpose will immediately after the payment of the same be applied in settling the claims made by the Indian Titles

CAUTION TO THE PUBLIC.

Fraudulent Imitation of

Hostetter's

STOMACH BITTERS.

☞ We warn the Public against a gang of scoundrels who are engaged in counterfeiting HOSTETTER'S CELEBRATED STOMACH BITTERS. These villains, who subsist by pirating, have exhibited a cunning equal to their rascality by selecting this most popular STOMACH BITTERS. Dealers from whom better things might have been expected have in some instances connived at the imposition for the purpose of sharing in the plunder.

On the principle that the receiver is as culpable as the thief, and that the passer of spurious money is as criminal as the forger, the makers and venders of COUNTERFEIT HOSTETTER'S BITTERS stand on the same MORAL level. The great reputation acquired by the BITTERS as a cure for Dyspepsia, Liver Complaint, and all debilitating diseases of the Stomach and Bowels, has tempted a host of sharks, who hope to profit by their celebrity.

A CARD.

EDITOR COLONIST.—In order to counteract a report which has been circulated, that I am not qualified for admission to the Bar as an Attorney, I append an extract from a despatch from His Grace the Duke of Newcastle to His Excellency Governor Douglas, in reply to my petition to Her Majesty the Queen, which was signed by upwards of 100 of the leading inhabitants of Victoria, upwards of 20 Writers to the Signet, and Solicitors before the Supreme Courts of Scotland the Members of Parliament for my native city, Edinburgh, and forwarded by the Lord Advocate, first law officer of the Crown for Scotland and representative of the Scotch Bar in the House of Commons.

[Copy No. 85.]
DOWNING STREET, 7th February, 1862.

To GOVERNOR DOUGLAS, C. B.,

SIR:—I have received your despatch No. 74, of the 7th December, 1861.

As MR. COPLAND HAS QUALIFIED HIMSELF BY STUDY IN SCOTLAND, FOR PRACTICE AS A WRITER TO THE SIGNET, I think the Chief Justice would have acted wisely if he had carried into effect his intention of making a Rule of Court under which that gentleman might be admitted to practice in Vancouver Island. * * * * * *

I have, &c.,
(Signed) "NEWCASTLE."

I shall only further add, that, although the above document has been in the Government offices for two months, His Honor the Chief Justice has not issued a fiat for my admission to the Bar, and now I leave the facts, without comment, in the hands of a discerning public.

ROYAL MAIL

Steam Packet

Company's Agency,

For British Columbia & Vancouver Island.

OFFICE, MACDONALD & CO., BANKERS,
Yates Street.

THE ATTENTION OF SHIPPERS and passengers is particularly directed to the superior facilities the Royal Mail Steam Packet Company's Line affords for the speedy conveyance of Treasure, Goods and Passengers to and from England to British Columbia and Vancouver Island, in connection with the **Pacific Mail Steamship Company's Vessels and the Panama Railroad.**

The superiority of the accommodation and entertainment on board the Royal Mail Steamers, together with the time occupied on the passage between England and Aspinwall **direct** being so much shorter than by any other route, and the moderate rate of passage money, render this Company's steamers the CHEAPEST AND MOST EXPEDITIOUS MEANS OF TRANSIT, for passengers or for the forwarding of Goods and Treasure from Aspinwall to Europe.

Under an arrangement with the PACIFIC MAIL STEAMSHIP CO., Specie and Bullion can be conveyed to London and Havre in France

Further information on the subject of Freight and Passage Money will be furnished by the undersigned.

English News.

Our last report of the English news was up to the 7th of June, and the arrival of another mail, with dates up to July 13th, brings us further particulars, respecting matters scientific, literary, and political. The abuse of the British people by American journalists is generally regretted, more especially as motives are assumed without any attempt being made to prove their truth. The *Times* states that it entertained better hopes of Americans of the higher rank, and expected that they would have formed a sounder judgment upon actual events, and a juster estimate of human motives. The hatred of the South towards Great Britain is not deemed remarkable, inasmuch as the Southern leaders counted upon British interference from mercenary motives, and were egregiously disappointed. "Had Britain been disposed to interfere," says the *Times*, "it is a fact known to the world, that she would have been backed up and assisted in that interference by the first military nation in Europe."

The *Times'* remarks, and those of the press generally, respecting Canada, calling upon her to defend herself, were somewhat premature. Lord Palmerston has stated in the House that British troops will not be withdrawn from Canada. The Kingdom of Italy is recognized by the English Government, as well as by Russia. The Slave bill has been read a second time in the House of Lords.

The fighting before Richmond is treated as a severe reverse for the Federals by the whole press, the *Post* arguing that practically the scheme against Richmond has failed, and the *Herald* stating that although the Confederate capital is safe, the campaign in Virginia is not ended. The *Times* urges that the fighting before Richmond must have been of the highest importance; that McClellan's position is precarious, and that the of South is strong enough to hold its own in Virginia for a term that may be indefinitely prolonged. The *Herald* is the only journal which openly encourages the idea that the civil war in America will be forcibly terminated by the interference of European powers. If the present English Ministry is unable to retain office, such a policy might be pursued by Lord Derby's Government. The *Herald* is the only conservative organ whose opinions can be regarded as official. The news of the fighting before Richmond has created a good deal of excitement in London, as well as the impending financial crisis. The New York correspondent of the London *Times* asserts that the capture of Richmond will not end the war in America, but that it will be simply transferred farther South. A peaceful separation is pointed to, as the only solution of present difficulties. "Let France and England extinguish this fratricidal conflagration," says the *Dispatch*.

Great distress appears still to prevail in Lancashire, and a meeting at Stockton has adopted a petition to Parliament not to hesitate in acknowledging the Southern Confederacy, so as to obtain a supply of cotton. The *Times* deprecates this movement. The distress in the district of Wigan is thus described by Mr. Farnal, the Government Commissioner in a letter addressed to the guardians: "I must tell you that three are eighteen mills which have wholly stopped work, and that the stoppage has thrown no less than 6800 persons wholly out of work. To come to the real number thus affected you must multiply that number by two, and thus you will arrive at the number who must be requiring some sort of aid, either from charity or from the rates, in consequence of the 6,800 being absolutely out of the receipt of wages altogether; for if they are out of receipt of wages their families must, to a great extent, be out of bread, and therefore the number thrown into difficulty from the stoppage of these mills must be estimated at 13,600. In addition to this, there are 400 hand-loom weavers out of work. There are also five mills working three days in the week, employing 2000 persons, and there are two mills employing 380 persons, working full time. I cannot give you a better idea of what the distress must be among these people than by showing the loss of weekly wages. The loss of weekly wages to these 6,800 persons thrown entirely out of work, is no less than £3,400; the loss of wages entirely to the 2000 persons working short time is £500, and the loss of wages to the 400 hand-loom weavers is £180, so that there is a weekly loss of wages within the township of Wigan and its suburbs of £4,480." This is but a small modicum of the distress consequent upon the American difficulty. There is a continued agitation throughout Lancashire for the total repeal of the duties on yarns and cotton goods imported to India, and frequent deputations are sent to London to press these views upon the attention of Her Majesty's Ministers. Comparing the statistics of pauperism between April, 1862, and the previous year, in Cheshire and Lancashire, we find that there has been an increase at the rate of about 66 per cent., or two-thirds. From statistics issued in May we learn that there has been an average increase in the number of paupers at the rate of a thousand a week.

It is with great regret that we record the death of the well known historian Henry Thomas Buckle, which took place at Damascus on the 31st of May. The "History of Civilization," the first volume of which appeared in 1858, was a work which gave Mr. Buckle a European reputation. Mr. Buckle's theory was that the progress of civilization is attributable to its intellectual activity, and his ideas in respect to Christianity in its relation to civilization have met with more opposition than approval. Mr. Buckle was the son of a London merchant, and entered a commercial house, which he left on the death of his father in 1840, in order to devote himself entirely to literary pursuits.

The Social Science Association have held some meetings, and at one an interesting paper was read by a Mr. J. Hyde on the Amusements of the Working Classes. Mr. Hyde recommends particularly the establishment of market gardens in the suburbs of towns and the encouragement of vegetable shows, also the formation of bowling-greens, skittle-grounds, coit-grounds, and cricket clubs detached from public houses. It is undoubtedly a fact that people crave for excitement of some kind naturally, and if good amusements are not found for them they will have recourse to those bad amusements which vicious and unscrupulous men are only too happy to supply.

States News.

We have no space except for a brief notice of matters in the States. Things look unfavorable to the North. Whether they are so or not is another question. The South and West appear to bristle with guerrillas. They have sprung suddenly into importance as if by command of a central head. But beyond attracting attention or diverting the Federal forces in every direction to suppress them, it is difficult to imagine how they can aid very greatly in the work of independence. The grand centre—the seat of war—is still Virginia. No important battle has lately occurred; but it is apparent that another struggle is impending. The Confederates are trying to surround McClellan and by starvation or assault force him to surrender. Their tactics are on a grand and daring scale. They are menacing—aggressive—threatening the capital—Washington. To meet their new movements, Gen. Halleck is made commander-in-chief of the army, with his headquarters at Washington. There is an evident fear there that whilst McClellan and Pope are occupied, a dash will be made for the capital. The Confederates cannot wait till 300,000 more men are in the field opposed to them. Their blows will have to fall thick and fast, else resign the contest. A week or ten days hence will not unlikely bring us stirring news.

Resolution.

AT A SPECIAL MEETING OF Tiger Engine Company No. 2, held Monday evening, July 28th, the following Resolution was unanimously adopted:

RESOLVED, That the Tiger Engine Company return their sincere thanks to Mr. Jas. E. Wolfe, formerly a member of Deluge Engine Company No. 1 of this place, and now a resident of San Francisco, for his kindness and attention to our late brother fireman, J. D. Carroll

FRANK SYLVESTER,
au1 1t Secretary Tiger Engine Company.

FARM TO LET.

THE FARM OF COLWOOD, IN THE District of Esquimalt, V. I., is hereby offered for lease, for one or more years, with immediate entry, and at a moderate rent. It contains 620 acres, well situated, and of which upwards of 200 acres have been under cultivation. It has a good Dwelling House, with Garden attached, containing apple, pear, plum, and cherry trees, etc., etc., in full bearing; Servants' Cottages, and all other necessary buildings, etc. Also, water frontage and a Landing Pier on Esquimalt Harbor, affording easy access at all times by water to Victoria, from which it is distant by land about 6 miles.

Along with the Farm there will be let "on shares," if desired by the tenant,

A Flock of Sheep and an Excellent Lime Quarry,

with two good Kilns.

The premises may be viewed any day; and further particulars will be supplied at Victoria, by

DR. TOLMIE,
Or Mr. MUNRO.

COLONIAL SECRETARY'S OFFICE, 30th July, 1862.

PUBLIC NOTICE.

ALL PERSONS BEING PURCHASERS of land in the Districts of Cowichan, Somenos, Comiaken, Quamichan, or Shawnigan, are hereby informed that the request contained in their petition will be complied with in the following manner:

The sections on which instalments are due on the 11th day of August, 1862, will be absolutely forfeited on that day.

Each purchaser, however, may, within 14 days from the 1st of August, 1862, select a number of acres equivalent at £1 per acre to the amount paid by him to the Land Office, and state in writing addressed to the Surveyor General the section or sections selected by him within the said 14 days. The sections so selected shall be conveyed to the purchaser on his releasing all claims against the remaining sections.

Any purchaser who has not completed his selection and notified the Surveyor General thereof in due form prescribed by this notice, shall in lieu of land selected be entitled to a land warrant entitling him to a grant of land in any part of Vancouver Island of the extent paid for by him hitherto paid up instalments, at the ratio of £1 per acre, such land to be selected from any Crown land unsold, unpre-empted and unreserved at the time of application for the same.

No person in selecting land in respect of his paid instalments shall take any fractional portion of a section, but if willing to pay £1 an acre for the residue, may purchase the whole of such section by paying into the Land Office the price of such residue at the rate aforesaid.

In the event of any purchaser having paid any money for his instalments beyond the amount necessary to cover the land selected by him, and being unwilling to purchase the residue of any section in manner aforesaid, he shall be entitled to a land warrant to the extent of the unapplied money.

By order of the Governor,

ju31 WILLIAM A. G. YOUNG.

DOUGALL & SON,

Caledonia Iron Works, Indian Reserve.

GRATEFUL TO OUR NUMEROUS friends for their liberal patronage, and determined to keep labor in the Colony, we are constantly making additions to our extensive works in patterns and machinery with a powerful steam hammer, steam shearing engine, and punching engine, along with three self-acting lathes, and one large, iron planing machine, which are the very best machines on the Pacific coast, manufactured by Whitworth, of Manchester. These powerful machines enable us to execute the largest machine, smith and boiler work that is required in these Colonies.

We are the only manufacturers of

Cameron's Improved Turban Water-Wheel,

Which is the best ever constructed, comprising cheapness with compactness and durability. We attach them to Maley and Circular Saw-mills. A ten-horse power mill can be packed to any part of the mines. The largest piece not exceeding 100 pounds weight.

A continuance of public patronage is respectfully solicited.

ju28 DOUGALL & SON.

Collegiate School for Boys,

VICTORIA, V. I.

VISITOR—The Right Reverend the Lord Bishop.
PRINCIPAL—The Rev. Charles T. Woods, M. A., T. C. D. and Oxon.
SECOND MASTER—Robert Williams, M. A., Cantab. (Wrangler and Member of the Senate of the University of Cambridge)

Course of Instruction.

The Greek and Latin Classics,
Mathematics, Arithmetic, Geometry, Algebra, Trigonometry,
The English course comprises Geography, History, Book-Keeping, Astronomy, Natural Philosophy, &c.
Modern Languages—French and Spanish.

The Collegiate School is conducted on the principles of the old established English Grammar Schools, a Religious Education being the recognized basis of all instruction.

TERMS.

Under 12 years of age.....$5 per month
Under 16 years of age.....$6 per month
Over 16 years of age.....$8 per month
No Extras. Fees payable in advance. ju29 1m

THE BRITISH COLONIST

Friday Morning, August 1, 1862.

HOUSE OF ASSEMBLY.

THURSDAY, July 31, 1862.

House met at 3½ o'clock. Present—Speaker Helmcken, and Messrs. King, Cary, Burnaby, and Trimble.

Mr. Burnaby moved for the appointment of a select committee relative to the minutes of the past year. Carried, and Messrs. Burnaby, Franklin, and Trimble appointed.

The Council amendment to the Incorporation Bill was accepted and the bill finally passed.

The amendments to the Burnside Road Bill were read a first time.

Mr. Cary gave notice that on Monday next he would introduce a bill authorizing the Government to borrow the sum of £40,000.

The £20,000 loan bill was withdrawn by consent of the House.

Mr. Cary introduced a bill to increase the number of representatives of the town of Victoria to four.

House in committee on the Stamp Bill. Several clauses were passed without discussion when the committee rose and reported progress and the House adjourned.

FUNERAL.—The funeral of the late John D. Carroll took place yesterday afternoon from the Tiger Engine house. The remains were followed to the grave by the members of the Fire Department and a large concourse of citizens. At the Catholick church the funeral service was performed over the body by Bishop Demers, and at the grave a few very impressive remarks on the uncertainty of life, the necessity of being always prepared for the great change, and the werning we should take in the passing away from earth of dear friends, were delivered by the Rev. M. Mearnes. At the conclusion of the ceremonies, the coffin was lowered into the grave and the sound of the clay as it fell upon the coffin reminded the spectators that all that was mortal of our late fellow-citizen was hid for ever from their gaze.

AIDING AND ABETTING SAILORS IN DESERTION,—About daylight yesterday morning officers Jones, Crowley, and Douglas, detected three sailors and a man named George Williams, in a canoe at the foot of Cormorant street, who were evidently in the act of leaving for foreign parts. They were all arrested and taken before Mr. Pemberton who fined Williams £30, or six months with hard labor, and returned the sailors to their ship. The officers by their vigilance are entitled to a reward of £30 from the Admiral for effecting the conviction of the enticer; £3 each for the deserters; and one half of the fine which Williams was ordered to pay. Not a bad morning's work.

TYNEMOUTH.—A private letter, received by the last mail, states that the Rev. W. R. Scott is chaplain on board the Tynemouth, in which there are 59 females for this port. He is on his way to Honolulu, *via* Victoria, to assist the Anglican Bishop of Honolulu. Mrs. Scott is the Superintendent in charge of the females, besides which there is a Matron. The character of the women is very highly spoken of. There is also on board a considerable number of men with their families, but their quarters are quite separate from the others. The Tynemouth is expected early in October.

THE QUEEN CHARLOTTE COPPER MINE.—Mr. F. Pool, late of Burgess, C. W., where he owns an extensive copper mine, was yesterday awarded the contract of sinking shafts on the islands near Queen Charlotte's, for the purpose of prospecting for copper. The work will be prosecuted with vigor by Mr. Poole, who is a practical copper miner. Himself and party will start to-morrow, on the schooner Rebecca.

COLLECTOR SMITH.—This gentleman, the U. S. Collector of Customs for Puget Sound, has triumphed over all his enemies and returns from Washington with increased powers. How the charges of defalcation were disposed of we have not heard.

THE GUNPOWDER CASES.—The Attorney-General was again absent when the gunpowder cases were called on yesterday, and the cases were further postponed for one week. In the meantime, the town may be blown to splinters and half the people to kingdom come.

NEARLY BARE.—There is hardly a cent in the Treasury; $6000 is wanted at once, and the House must meet again shortly to pass the Loan Act, in order to enable Gov. Douglas to proceed to British Columbia.

OATS.—Oats in the neighborhood of Victoria are ripe for the sickle. We understand that as much as $4 per acre has been offered for cutting oats, but cannot say if the offer has been accepted.

THE "SHUBRICK."—This steamer will carry the mails on Puget Sound, making regular trips to this port. No contract for the conveyance of the mails will be made at present.

TO BE REMOVED.—The U. S. Steamer Shubrick left yesterday afternoon for Port Townsend. The custom house will be removed at once to Port Angelos.

ARRIVAL.—The brig Emily W. Seyburn Capt. Howe, arrived from San Francisco yesterday morning with 320 tons of freight. She is consigned to St. Our's & Co.

HEAVY.—Collector Smith has brought one million of dollars in Treasury notes, to be disbursed on the Sound.

INCORPORATION BILL.—The Incorporation Bill finally passed the House yesterday, and will go to the Governor for his approval.

MAIL.—The Shubrick brought a small newspaper mail and a few California letters.

☞ Governor Douglas will proceed in a few days to British Columbia.

☞ The Enterprise will leave for New Westminster at 8 o'clock this morning.

☞ The steamer Sierra Nevada is fully due to-day.

ADDITIONAL.

ST. LOUIS, July 23.—The Provost Marshall has issued an order forbidding the sale or transfer, by dealers, of arms or ammunition of any kind, under penalty of the arrest and imprisonment of the offenders during the war. All dealers, whether agents or owners, are required to make an inventory of all arms and ammunition on hand, to be filed at the Provost Marshal's office within three days, with affidavits of their values attached as usual, and should it become necessary to take possession of the said arms for the use of the militia, under Gen. Schofield's order, proper receipts will be given. The removal of arms and ammunition from one part of the State to another is also forbidden, except by State Militia, and persons offending will be held as guilty of aiding the enemy.

Information received from Frederickstown says that a desperate fight took place at Greenville, Mo., a few days since, between two companies of State militia stationed at that place and a band of guerrillas by whom they were surprised. The attack was made at daylight and was sudden and fierce. No pickets were out to apprise our men of the approach of the enemy. Eighteen Federals were killed and a number wounded. The enemy's loss is not known. They took possession of the town.

MEMPHIS, July 16.—The Granada *Appeal* has a New Orleans despatch denying the truth of the report of the recapture of Baton Rouge by Van Dorn, and says that the *canard* was for financial purposes.

The same paper says that the rebel army in Mississippi is rapidly swelling. An important movement of some kind is believed to be on foot. The work on the fortifications at this place [Memphis] is going on rapidly. Their [the Federal] works are formidable, encircling the entire city.

The President has approved the Confiscation Act and a resolution supplementary thereto.

CAIRO, July 18.—An officer direct from Curtis' army confirms the reports that Gen. Price's army had crossed the Mississippi. According to reports brought to Gen. Curtis a passage had been effected by small flat boats and skiffs, at different points, within ten days.

MEMPHIS, July 17.—The Granada *Appeal* of the 16th has a Vicksburg despatch of the 25th, which says that the Confederate iron-clad gunboat Arkansas left the mouth of the Yazoo river that morning, and moved down to encounter the Federal gunboats between the mouth of the Yazoo and the city. There were 30 gunboats lying above Vicksburgs, which formed a line to receive her, but she ran straight through, firing as she came on, sinking several and damaging others. The loss of the enemy not known; many who escaped overboard from the Federal boats were drowned. Within the last hour the lower fleet has fled, transports and all, first blowing up the mortar boats. Rebel loss, 10 killed and 13 wounded.

WASHINGTON, July 20.—A free colored man, escaped from Richmond, says the rebel loss during the seven days' battle was 32,000. Gen. Ewall was severely wounded. Gen. Johnston had experienced a relapse, and mortification had set in. His wound, it is feared, will be fatal.

The Richmond papers of the 18th contain an account of the death of Gen. Twiggs at Augusta Island, on the 15th.

A rumor was current in Richmond that President Davis had demanded the surrender of Gen. Butler for hanging Mumford, and if refused, he would hang one of our captured generals.

WASHINGTON, July 21.—There is reason to believe that the President will soon lay down certain rules for the conduct of the war—such rules as any one sincerely desirous of carrying out the principles of the Confiscation Act would adopt and enforce.

MEMPHIS, July 19.—On the night of the same day that the Arkansas performed the feat of running the fleet, Farragut made an ineffectual attempt to sink her. As his entire fleet passed down the river each one poured a broadside into her as they passed. A reconnoissance next morning showed the Arkansas was undergoing repairs, but did not seem to be much damaged. The rebels acknowledged that one 7-inch steel-pointed shell went through her, but assert that this was the only damage sustained.

CAIRO, July 22.—The guerrilla raid into Indiana seems to have been greatly exaggerated. A small band crossed at Newberg, where they committed a series of robberies, and then recrossed the river. Efficient measures have been taken to guard against a repetition of the outrages.

Washington, July 22.—The Treasury Department is making active preparation for the issue of new Treasury notes of the denominations $1, $2 and $3. They will be ready for delivery in about a fortnight.

A Newbern, N. C., letter, dated the 15th, says that Hamilton, N. C., was captured on the 9th by three of our gunboats and a company of Hawkins's Zouaves under Captain Holmes.

A Washington despatch to the *Times* says that information has been received from several States, showing that under the last call upwards of 30,000 men have been enlisted, and two or three full regiments are forming. It is now believed that a sufficient force, for present emergencies, will soon be in the field.

NEW YORK, July 22.—A Fortress Monroe letter of the 20th states that Beauregard is in command of 30,000 men on the south side of the James River, between City Point and Richmond, to cover rebel forts.

WASHINGTON, July 22.—The following orders have been issued by the War Department:

1st—That Military Commanders within the States of Virginia, South Carolina, Florida, Georgia, Alabama, Mississippi, Louisiana, Arkansas, and Texas, shall, in orderly manner, seize for the use of the army, all property, real and personal, which may be necessary or convenient for their several commands, for supplies and other military purposes; and while proper for military objects, none shall be destroyed wantonly.

2d—Military and Naval Commanders shall receive, as labor, within said States, as many persons of African descent as can be advantageously used for military and naval purposes, giving them reasonable pay for their labor. Accounts are to be kept, showing from whom property and laborers are taken, in order that compensation can be made to the proper parties.

Gen. Smith is pursuing the rebel Morgan in Kentucky.

ST. LOUIS, July 23.—Gen. Scofield has issued orders for the immediate organization of all the Militia of Missouri, for the purpose of exterminating guerrillas. Every able bodied man capable of bearing arms and subject to military duty, is ordered to repair, without delay, to the nearest military post and report for duty. Every man to bring whatever arms he can procure. All arms and ammunition, not in the hands of loyal men, to be taken possession of and used for the public defense. Six days is allowed for every man to fit for duty to report himself.

NEW YORK, July 24.—The *Herald's* Washington despatch says that the rebel sympathizers in Baltimore, who appear to be well-posted, say that Stonewall Jackson, with a moderate force, is to be sent up the valley of the Shenandoah, to keep Pope occupied. A small force is also to be sent down to Pettonsville, to threaten Newport News, and prevent the removal of troops from that point, and about 50,000 men are also to be pushed to James river below McClellan's position; while the whole of the rest of the rebel army is to be marched rapidly upon Washington. This is rather sensational. I send it for what it is worth.—Reporter.

MOBILE, July 17.—Richmond despatches say that Gen. Stewart has made another reconoissance around McClellan's army, that with a few pieces of artillery he had reached James river below his lines, opened fire on a large fleet of transports, sunk one and crippled several others. The Richmond *Enquirer* says that our lines have been brought closer to Richmond, but that a large force has been left in the immediate front of the enemy.

BALTIMORE, July 23.—The *American's* correspondent at McClellan's headquarters, writing under date of yesterday, says things here are very dull. When the President was here McClellan recommended and urged the appointment of Halleck as Commander-in-Chief. He told the President that he would not allow his own claims to interfere with the President's action in the matter. The health of the army is much improved since we came to James river, although there is still a very large number of sick. No movements are expected to take place very soon. The rebels are frequently seen on the opposite bank of the river; but they are never interfered with unless they appear in large numbers, when the gunboats shell them out.

WASHINGTON, July 23.—Gen. Pope has ordered the commanders in his department to arrest all disloyal male citizens within the lines or within reach. Such as are willing to take the oath and furnish security for its observance, may be allowed to remain at their homes. Those refusing will be conducted South beyond the extreme pickets of the army, and notified that if found again inside the lines, or at any point in reach, they will be considered as spies, and subjected to the extreme rigor of the military law. Any person having taken the oath, and afterwards violating it shall be shot, and his property confiscated and applied to public use. No communication whatever allowed with persons inside the enemy's lines, except through the military authorities and in the manner specified by military law. Any person carrying any letters or messages in any other way will be considered and treated as spies.

NEW YORK, July 23.—Col. Charles of the Tammany Regiment, who was captured and afterwards released, reports that he saw an iron-clad ram and also a small gunboat at Richmond. The rebel Government treats our wounded the same as their own. Rebel officers admitted that the wounded of both sides were dying so fast that they could not bury them. Col. Charles says that the working classes at Richmond are for the Union at heart, but despotism prohibits the discussion of politics except in newspapers. The rebel government viewed the execution of Mumford at New Orleans as a murder, and was disposed to make a demand for Gen. Butler, and in case of his refusal that Gen. McCall should be hung.

WASHINGTON, July 23. The Mobile *Advertiser* of July 11th, congratulates the Southern Confederacy on the loss of New Orleans; says it was at first regarded as a terrible blow to the cause, but has proved fruitful of great advantages. It has aroused Southern citizens; word has gone forth that there must be no surrender of seaport towns except they first be laid in ashes. General Butler is denounced in severe terms by the *Advertiser*, which says that his infamous rule has intensified Southern hatred of the Yankees. For his hanging of Mumford, and for other causes, it urges that 20 or 30 Federal prisoners of the highest rank be placed in close confinement until Butler is delivered up to the Southern authorities or the chances of war have thrown him into their hands.

European Intelligence.

[DATES TO SUNDAY, JULY 13TH.]

CAPE RACE, July 22.—The steamship Asia, with dates from Liverpool to the 12th, and from Queenstown to the 13th, has arrived.

The fighting before Richmond is treated as a severe reverse for the Unionists by the whole press. Gen. McClellan's position is regarded as precarious.

Lord Palmerston has stated that the British troops would not be withdrawn from Canada.

The recognition of Italy by Russia had been announced in the Italian Parliament.

Of the London press, the *Herald* treats the affair before Richmond as a defeat of McClellan, and says that the Confederate Capital is safe. It does not believe, however, that the campaign in Virginia is ended; but supposes it will go on. Europe should stay the uplifted swords, and in the name of humanity enforce peace.

The *Post* argues that practically, the scheme against Richmond has terminated; and then proceeds to point out the dangerous position of McClellan.

The *Globe* hopes that the gigantic difficulties which are being developed in the progress of the war may have an effect on both sides, and that more reasonable views may supersede the plan of military conquest.

The *Times* urges that the fighting before Richmond must have been of the highest importance, and that McClellan's position cannot but be precarious, and the Confederates strong enough to hold their position in Virginia for a term that may be indefinitely prolonged.

The news continues to excite strong hostile comments. The *Times* bitterly denounces the spirit with regard to the tariff, because of its injurious effects upon England in particular, and Europe in general.

Fortification bills were debated in Parliament, and amendments calculated to give the House of Commons due control over the expenditures of public money were carried by a majority of 3 against the Ministry.

The Paris *Patrie* asserts that France will never treat with Juarez until the French army has entered the City of Mexico. Mexicans will be consulted and their wishes scrupulously respected. France will only quit Mexico after the complete execution of a future treaty.

The Paris *Presse* says that the date of Gen. Forrise's departure for Mexico was still doubtful; and that the French army will comprise several divisions of infantry and a proportionate number of batteries. There is a report of stores provided for 300,000.(!)

In the House of Lords, the African slave trade bill had been read a second time. Earl Derby expressed fears that unless a treaty was made with France like that with America, the putting of a stop to the slave trade would be ineffectual. Earl Russell said that France had declined to enter into a similar treaty, but he believed would offer no objections to the exercise of its provisions.

Lord Palmerston confirmed the statement of Earl Russell that the Government had recognized Italy. He said that he believed Prussia would do the same.

A resolution against the English forces interfering with China, after considerable debate, was rejected.

There are rumors that France will back out of the Mexican expedition. The *Constitutionelle* says, the glory of French arms once vindicated and money matters settled with Mexico, proceedings against her will terminate.

General Prim had arrived in England.

Deputations from the cotton manufacturers of Lisle and Rouen called on their Representatives to explain the difficulties they were laboring under.

Bourse heavy, 68f. 30c.

The Italian Ministers had repudiated the Nuncios of Italy's [the Pope's] interference in Mexico.

LONDON, July 9.—The U. S. corvette Tuscarora has arrived at Southampton. The object of her visit is unknown.

The Paris *Opinion Nationale* says that the Russian papers have revived the rumor that France, in consequence of the stubbornness of England to do so, has invited Russia to join her in an offer of mediation to America. The Paris correspondent of the London *Herald* believes that the French Government entertains very serious intentions of interference to end the civil war.

The London *Times* has daily editorials on the position of affairs in America, and says that the dissevered States seem to be fast approaching that point when they must become two reasonable nations, or go to anarchy and ruin. It also says that the offer of our mediation would be received with insults.

The correspondent of the London *Times*, writing from McClellan's army, says the courage of the Federal soldiers was above all praise. Their hardships were mainly attributable to the ignorance and drunkenness of their officers.

The *Times* opposes the Manchester movements for interference in the American war.

A meeting at Stockbridge adopted a petition to Parliament, not to hesitate in acknowledging the Southern Confederacy, so as to obtain a supply of cotton.

The Prince of Wales was about to visit Russia.

The French Admiral, Graviere, had gone to Cherbourg to embark for the American waters.

LONDONDERRY, July 11.—The news of the series of battles fought before Richmond has excited the greatest attention, and it was thought would result in prolonging the war.

The Bute Inlet Route.

EDITOR BRITISH COLONIST:—As long as there could be any uncertainty in the public mind in respect to the practicability of a coast route from Bute Inlet to to the interior, I carefully abstained from addressing you on the subject; not from any doubt on my part as to the information that had been obtained at so much cost and trouble, but from a feeling of reserve, which your readers will appreciate. But now that the last expedition has fulfilled the desired object, and what I had anticipated is no longer a vision, it becomes a duty to satisfy public curiosity on a subject of so much actual interest to the Colony, and give a few details concerning a route which must eventually become the shortest, cheapest and easiest line of communication with the northern mines.

The exploring expedition alluded to left Victoria on the 15th of May, and was composed of Mr. Tiedeman, the engineer, and four men, one of whom spoke Chilecoten, besides three Indians. The return trip, headed by Henry McNeill, left Alexandria on the 4th of July, and reached the head of navigation on the 15th. One day was lost by illness, and another in procuring provisions, thus making the trip through in eleven days.

The first part of the trail from Alexandria to the Chilcoaten is well known, and crosses the vast plain which lies in that direction, and forms one of the great features of the country. This elevated and slightly undulating plateau may be 4000 feet above the sea, and from 1200 to 1500 above the Fraser at Fort Alexandria. It extends from near Stuart River to the mouth of the Chilcoaten, or 160 geographical miles, from north to south, and has an average width of 100 miles, in a westerly and southeasterly direction, where it extends to the foot of the Cascade Mountains, of which it considerably diminishes the height on the eastern slope. This vast plain is drained by small surface valleys, and spotted with numerous lakes; is everywhere covered with the richest bunch grass, and occasionally by clusters of small trees and brushwood The climate must be sufficiently mild for agricultural purposes, since the Indian horses pass the winter out of doors and without fodder.

As before said, the trail crosses this plain in a southwesterly direction, passing by Saunders' Lake, and thence to the foot of another lake, called Pantza, that falls into the Chilcoaten, and is situated on or near the water-shed which imperceptibly divides the basin of the Fraser from the Pacific. This lake is about 9 miles long by 3½ wide, lying north and south, its distance from Alexandria is about 75 miles, and it is at this point that the Bute and Bentinck Arm trails meet together. At Saunders' Lake, which is about 8 miles long, the party met 20 miners on their way to Cariboo, and on the next day 3 miners from the Stickeen. These men had been 14 or 15 days on their way, and gave rather a rough account of the route. At Pautza Lake, where there are two villages, the Indians reckon a difference of four days at least in favor of the Bute Inlet Route over the Bentinck Arm.

At Pantza Lake the party procured two guides, and after traveling 6 miles in a south-westerly direction over plain, level ground, reashed the head of Talea Lake, the waters of which fall into the north branch of the Homahco or Bute River. This lake, which follows the same direction, is 30 miles long and 1½ to 2 wide, with level banks, composed of loam, 20 feet above the water, and the stream which flows from it is navigable for light craft. A few miles lower down a tributary falls in from the west, and five miles below the lake is an Indian village, near the west bank of the river, where the party stopped for a day whilst the guides were procuring fish and other provisions. The next day they crossed a second stream from the west, about 50 feet wide, and passed over a small hill about 300 feet high to avoid the river, but a road could be easily made at the foot.

On the following day, 14th, the party pursued their route along the river, which they crossed twice It continued navigable, running about 2 or 3 miles an hour, averaged 100 yards wide, and was about 6 feet deep The guides state that it is never less than three feet at the lowest stage. This day they passed over several hill-sides to avoid the river. The country continued level, with fine grazing flats of several thousand acres. On the 15th they crossed several swamps of half an acre each, or less, and 60 to 100 feet wide, the only ones on the whole route. The route had been so far on *dry, hard, clear and level ground*, with the exception of the hill-sides above mentioned, the highest of which might be about 50 feet.

On the 16th the party entered the valley which forms the opening through the Cascade mountains; three miles below, the river becomes obstructed with rocks, and at the end of 7 miles, or 4 miles further, reaches the Forks, where it falls into the Eastern or main branch of the Homatheo. The noble river which thus winds its south-westerly and afterwards more southerly course from Talea Lake to the Cascade meuntains is free from snags, rocks, rapids, or sharp turns, its banks are covered with firs and cypress of the finest growth, and it is certainly navigable for light craft during a consideralble portion of the year, thus forming with the lake a water communication of 95 miles.

The valleys of the two rivers form a considerable angle at the Forks, to avoid which the party took a short cut and passed over a glacier, which comes down about three miles below from a gorge on the western side. This glacier was about half a mile wide where they crossed it, and 50 to 100 feet thick above the mountain stream beneath, and appeared to run up the gorge some 8 miles. It was of the clearest blue ice, and covered with stones and gravel. This is the second glacier on the Bute Inlet Route which comes down flush with the valley.

The party now came to the two hills that were explored last autumn, and which form the only difficulty on the whole route. The first is unimportant, but the other entirely obstructs the valley, and is 700 or 800 feet high, of which about 300 feet in one place are very steep. The pass (for it cannot be avoided,) can be easily surmounted by taking the wagon road up a gulley, which was known to exist last year, and which the old guide pointed out about four miles up the valley, but which as he said, lengthened the distance a mile and a half. On the south side of the pass the descent is very gradual. The summit of the pass runs at a distance of about a mile from the cañon, where the river is buried in a narrow, perpendicular cleft, forming, as it were, a break in the backbone of the Cascade Mountains. The pass runs on the west side of this deep fissure, at the bottom of which it appears there is a perpendicular fall of 60 or 80 feet, down which the whole river is precipitated, and after a course of two or three hundred yards, issues foaming and splashing from the dark abyss below. Here the river forms one vast torrent for about two miles down to the ferry, where the trail crosses it, and after running less rapidly for 8 miles further becomes entirely navigable for river steamers, and winds its way for 36 miles through a splendid valley to the head of Bute Inlet.

The distances of the whole route, as thus described, will be:

	MILES.
Head of navigation to Ferry,	8
Ferry to above the rocks on the North Branch,	14
Thence to head of Talea Lake, (by water).	95
Divide between the two lakes,	6
From Patza Lake to the Fraser, say above Quesnelle River,	85
	208

Of which only 113 of land travel!

VICTORIA, July 31st, 1862.

ALFRED WADDINGTON.

P. S. The party met the Government schooner Shark on the 22d inst., surveying near Savary Island.

Items of Interest to the Pacific Coast.

Mr. Victor Smith, the Collector for the Puget Sound District, Washington Territory, arrived by the Golden Age on yesterday, having in charge one million in Government funds for the U. S. Assistant Treasurer here.

The objects for which Mr. Smith visited Washington, and which have been so uncharitably commented on by his enemies in the Territory, appear to have been purely public in their character and may now be published with impunity. He has secured the passage of a bill—without a dissenting voice in either house—changing the location of the Puget Sound Custom House from Port Townsend to Port Angelos. The latter place is directly opposite the free English port of Victoria, V. I.

We also learn that Mr. Smith's proposition for an increase of revenue by a system of reservations and sales of town sites on public lands, has been approved by the Secretaries of the Interior and the Treasury, and that the bill drafted by the gentleman above named, passed the Senate before Mr. Latham left, and probably passed the House before the adjournment. In the meantime, and so soon as Congress had established the port of entry at Port Angelos (the site being on unreserved public lands,) Mr. Smith brought the matter of a reservation for Government account directly before the President, who anticipated the proposed legislation by ordering a reservation of the town site on Port Angelos harbor. In this way the possibility of private speculators in claims were precluded. The steam revenue cutter Shubrick, Capt. Pease, has been transferred to the Puget Sound District, and will sail this afternoon for her new destination. A light has been ordered for Ediz Hook, Port Angelos harbor. The law removing the Custom-house, Marine Hospital, etc., etc., from Port Townsend to Port Angelos, takes effect on the 1st of October prox.' The port is described as a splendid natural harbor, convenient to commerce, and admirably adapted by its elevation, fresh water streams, etc., for a sea-port town of importance. One of the elegant new propellers, now building on the Atlantic side for the steam revenue marine, is for San Francisco. We believe the measurement of the new cutters is not far from 300 tons.—*S. F. Alta.*

☞ Gen. Rosas, once Dictator of the Argentine Confederation in South America, and a wealthy despot, is now a refugee at Southampton, England, where he lives in seclusion, and is closing an arbitrary and bloody career with devotion to literature. After a trial, which has lasted ten years in South America, he has been condemned to death and his property to confiscation, but no one will buy it, believing that his heirs will eventually recover possession.

Total value, $12,000.

DR. HOSTETTER'S STOMACH BITEERS. It renovates, purifies the system, and aids the stomach in the performance of its functions. It is a sovereign specific for imparting strength, vigor and tone to the system, and possessing the curative powers for all diseases arising from a disordered stomach. In the most severe cases of cramps, diarhœa and weakness in the stomach, the "Bitters" have been rigidly tested, and always with the greatest success.—Sold by all druggists and dealers everywhere.

BRONCHIAL AFFECTIONS.—A clergyman writing from Morristown, Ohio, speaking of the beneficial effects resulting from the use of "Brown's Bronchial Troches," says: "Last spring I feared my lungs were becoming dangerously involved, and until I used your Troches could not preach a sermon of ordinary length without hoarseness; but now (with the assistance of the Troches) I have in the past five weeks preached some forty sermons."

HOLLOWAY'S PILLS are undeniably the finest Medicine in the world for Biliousness and Indigestion. In all cases of deranged stomach, determination of blood to the head, bile, sick headache, liver and stomach complaints, there is no medicine known that will give such immediate relief as these renowned Pills; young and old, rich or poor, patronise them, and so many cures are effected by their use, that their praise is sounded from the temperate climate to the frigid zone; in truth, persons who travel consider them a necessary requisite. During the overland journey to India, the blood becomes overheated, the liver torpid, the skin covered with prickly heat, and the whole system languid and exhausted. Nothing so soon gives relief as Holloway's Pills.

☞ COUGHS.—The great and sudden changes of our climate are fruitful sources of *Pulmonary and Bronchial affections*. Experience having proved that simple remedies often act speedily and certainly when taken in the early stage of the disease, recourse should at once be had to "*Brown's Bronchial Troches*," or Lozenges, let the Cough or Irritation of the throat be ever so slight, as by this precaution a more serious attack may be effectually warded off.

WATTS' NERVOUS ANTIDOTE

AND PHYSICAL RESTORATIVE.

THE MEDICAL WONDER OF THE Age. The most powerful and wonderful medicine ever discovered.

WATTS' NERVOUS ANTIDOTE.

Has cured, and will cure, more cases of Nervous disorders than any other known remedy.

WATTS' NERVOUS ANTIDOTE.

Has and will cure Nervous Headache, Giddiness, Fainting, Paralysis, Extreme Debility, Neuralgia, Chronic and Inflammatory Rheumatism, Toothache, etc.

WATTS' NERVOUS ANTIDOTE.

Is an effectual remedy for Wakefulness. Its soothing and quieting influence is remarkabte.

WATTS' NERVOUS ANTIDOTE.

Will cure Delirium Tremens, Nervous Trembling, Epilepsey, Twitching of the Facial Nerves, Convulsions, and Pulmonary complaints.

WATTS' NERVOUS ANTIDOTE.

Will act upon that state of the nervous system which produces Depression of Spirits, Anxiety of Mind, Mental Debility, Hysterics, etc., and is so wonderful in rejuvenating premature old age, and correcting decrepitude brought on by excessive indulgence, that nothing but a trial can convince the patient of its qualities. It is not an excitant but a strengthener, purely vegetable and harmless; like a skillful architect begins by laying a firm foundation, and gradually but incessantly adds strength and vigor until nothing is left unfinished.

Notice to the Public.

SAINSEVAIN'S WINE BITTERS; OR California Vermouth.—These Bitters are obtaining a wide-spread celebrity in all parts of the State. It is sufficient evidence of their great merit to observe the large quantities shipped by our principal Wine Merchants to every part of the country

Sainsevain, however, like all other manufacturers of new and valuable articles, has to contend with unscrupulous parties, who are introducing a spurious mixture purporting to be his Wine Bitters, which noxious compounds are put up in the same style of bottles, labels, etc., so as to pass for the Sainsevain brand. We call attention to this fact so that our citizens may be upon their guard, and that when they ask for Sainsevain's Bitters, see that they get them. As pure Wine is destined to drive from use all alcoholic decoctions, so these Bitters will soon take the place of the adulterated preparations which now flood our market Those desiring a pure and agreeable tonic should try Sainsevain's Wine Bitters or California Vermouth.

We have appointed W. H. OLIVER, of Victoria, V. I., to be our Sole Agent for the British Possessions.

Baths! Baths!

HOT, TEPID AND COLD WATER, Medicated, Vapor and Sulphur Baths, can be had, unsurpassed in quality and convenience by any on the Pacific Coast, at the former Residence of Dr. Wm. H. GOSS,

Cor. of Douglas and View streets.

This elegant Bath House will be open in the future for both LADIES and GENTLEMEN. Ladies' Entrance is on the South side; Gentlemen will be admitted to their Parlor on the West side.

N B.—No luxury equal to a bath can be procured for FIFTY CENTS. Sulphur and Vapor Baths cost but $1.

☞ Remember, FIVE-EIGHTHS of all we eat should pass through the pores of the skin. 'Wash and be clean;' 'Cleanliness is next to godliness.' If you would save your pockets from medical taxation, and your bodies from poison drug vexation, BATHE FREELY and avoid paracelcian quacks. ☞ Ladies, would you have a sweet breath and fair skin? Bathe! Hours from 7 A. M to 9 P. M.

Dr. C. H. DEWOLFE, from Philadelphia, Lecturer on Physiology, Phrenology, Heygiene, etc., etc, has taken Rooms in connection with the above Baths, over which he will extend a general supervision, as well as attend to an Office and Family Practice. He makes no boast of what he has done or can do, but solicits that share of patronage which the people of an inteligent community may find to their physical and pecuniary interest to bestow after having consulted him. je3-3m

Wistar's Balsam of Wild Cherry,

The Best Remedy ever known to Man,

For Coughs, Colds, Asthma, Croup, Bronchitis, Influenza, Bleeding of the Lungs, Difficult Breathing, Liver Affections, Pain or Weakness of the Breast or Side, First Stages of Consumption, &c., &c.

In short, this Balsam is peculiarly adapted to every disease of the Lungs and Liver, which is produced by our ever-varying climate.

Influenza and Consumption.

It is indeed a melancholy truth that thousands fall victims to consumption every year from no other cause than neglected colds; yet we find hundreds, nay thousands, who treat such complaints with the greatest indifference and let them run on for weeks, and even months, without thinking of the danger. At first you have what you consider a slight cough or cold; you allow business, pleasure or carelessness to prevent you from giving it any attention; it then settles upon your breast, you become hoarse, have pains in the sides or chest, expectorate large quantities of matter, perhaps mixed with blood; a difficulty of breathing ensues, and then you find your own foolish neglect has brought on this complaint If, then, you value your life or health, be warned in time and don't trifle with your cold, but immediately procure a bottle or two of that famous remedy, Dr. WISTAR'S BALSAM OF WILD CHERRY, which is well known to be the most speedy cure ever known, as thousands will testify whose lives have been saved by it.

For Influenza it is the very best medicine in the world.

Be not deceived, remember that it is

Dr. Wistar's Balsam of Wild Cherry

hat performs the most wonderful cures, and it is the emedy that will afford you immediate relief.

☞ Sold by all Druggists.

Dr Guysott's Improved Extract of

Yellow-Dock and Sarsaparilla.

THIS EXTRACT OF YELLOW-DOCK AND SARSAPARILLA is a positive, speedy and permanent cure for all diseases incident to females.

Its mild alterative properties render it peculiarly applicable to the slender and delicate constitution of the female. It is unrivalled in its effect upon such diseases as Incipient Consumption, Barrenness, Leucorrhea or Whites, Irregular Menstruation, Incontinence of Urine, and General Prostration of the System.

It immediately counteracts that distressing Nervousness and Lassitude so common to the female frame and imparts an energy and buoyancy as surprising as they are grateful. We have evidence on file which induces us strongly to recommend this medicine to married people who have not been blessed with offspring

The Shaker prepared "Yellow-Dock" and the Red "Honduras Sarsaparilla" are the invaluable remedial agents from which Dr. Guysott's Improved Extract of Yellow-Dock and Sarsaparilla is formed, and the Laboratory of Dr. Guysott has given us the virtues of the roots in their perfection. His preparation contains all the restorative properties of the roots combined and concentrated to their utmost strength and efficacy.

Experiments were made in the manufacture of this medicine until it was found that it could not be farther improved.

☞ ☞ ☞ ☞ ☞ ☞ ☞ ☞

Accordingly we find it resorted to almost universally in cases of Hepatic, Scorbutic and Cutaneous complaints for general prostration of all the vital powers and all those tormenting diseases of the skin so trying to the patience and so injurious to the health.

The Great Domestic Revolution.

HARPER TWELVETREES' SOAP POWDER for Washing without Rubbing has created an entire change and thoroughly revolution in the management of the "Family Wash;" and there are no reasons why the old, slovenly and disgusting process should be retained—a process so unnecessary, unscientific, and barbarous as to be considered a great national disgrace! Harper Twelvetrees' Soap Powder saves time, trouble, money, firing, soap, "tongue and temper," and entirely abolishes the "female slavery" of the tub, and the present domestic happiness-destroying practice of washing. It contains nothing injurious, but is as safe for the frabric and skin as the best soap! Only boil the clothes 20 minutes and hang them up to dry. No RUBBING is required, however dirty the clothes! A Penny Packet is equal to Two Pounds of Soap!!

Every Packet bears the signature of the sole Manufacurer, HARPER TWELVETREE, "The Works," Bromley-by-Bow, London, E., the largest Manufacturer of Washing Powder in the world. Sold by all Grocers and Druggists.

Agents, Messrs. JANION & GREEN,

se18 Victoria.

The Science of Ironing.

ASK FOR BRIGGS' AUSTRALIAN SATIN GLAZE STARCH where you purchase Harper Twelvetrees' Soap Powder One pound is equal to nearly Two Pounds of any other. It is the very best Starch for Gentlemen's Collars and Cravats and the most economical for large Washing Establishments, Manufacturers, Bleachers, Hot-Pressers, and Finishers; and as the iron cannot possibly stick, every description of Embroidery, Lace, and Muslins can be Ironed without fear of tearing. Used exclusively by her Majesty's Lace Dresser, by the Laundress for Buckingham Palace, and by thousands of Families throughout the Kingdom. Sole Manufacturer—HARPER TEWELVETREES, Bromley-by-Bow, London, E.

26, Woodstock street, Bond street, August 31, 1858.

[Lace Dresser by Appointment to the Queen.]

GENTLEMEN:—I have used your Starch for a considerable time, and have much pleasure in saying that is the best Starch I have ever used, It surpasses any of the Foreign Manufacturers for giving a beautiful finish to the most delicate fabrics. For fine laces, &c., it is invaluable.

I am, Gentlemen, yours respectfully,

ELIZABETH CURLING.

LEA & PERRINS'

CELEBRATED

Worcestershire Sauce.

PRONOUNCED BY CONNOISSEURS TO BE THE **Only Good Sauce,** and applicable to EVERY VARIETY OF DISH.

EXTRACT of a LETTER from a MEDICAL GENTLEMAN at Madras, To his Brother at WORCESTER, May, 1851

"Tell LEA & PERRINS that their Sauce is highly esteemed in India, and is, in my opinion, the most palatable, as well as the most wholesome Sauce that is made.'

EXTENSIVE FRAUDS.

L & P. having discovered that several of the Foreign Markets have been supplied with SPURIOUS IMITATIONS of the "WORCESTERSHIRE SAUCE,' the labels of which closely resemble those of the genuine Sauce, and in one or more instances with the names of L. & P. FORGED, they have deemed it their duty to caution the public, and to request purchasers to see that the names of LEA & PERRINS are upon the Wrapper, Lable, Stopper and Bottle.

L. & P. further give notice that they will proceed against any one who may infringe upon their right, either by manufacturing or vending such imitations, and have instructed their correspondents in the various parts of the world to advise them of such infringements.

Wholesale and for exportation by the Proprietors LEA & PERRINS, Worcester, England; Crosse and Blackwell and other Oilmen and Merchants, London. n10 1awly

MEDICAL.

HEALTH FOR A SHILLING

Holloway's Pills.

Headaches, Bile, Loss of Appetite, and Lowness of Spirits.

These Pills require no interruption of business or pleasure; they act mildly on the bowels, strengthen the stomach, and promote a healthy action of the liver, whereby they purify the blood, cleanse the skin, brace the nerves, and invigorate the while system. They effect a truly wonderful change in debilitated constitutions, as they create a healthy appetite, correct indigestion, remove bile, giddiness, headaches, and palpitation of the heart.

Weakness and Debility.

In cases of debility, languor, and nervousness generated by excess of any kind, whether mental or physical, the effect of these Pills is in the highest degree bracing, renovating and restorative. They drive from the system the morbid cause of disease; re-establish the digestion, regulate all the secretions, brace the nervous system, raise the patient's spirits, and bring back the frame to its pristine health and vigor. They increase the appetite, while they secure perfect digestion to all ordinary food, and release the invalid from restraint in diet.

A Word to Females.

There are two periods, especially in Woman's life, which require for safe passage, judgment and attention. Irregularity is apt at those critical times to take place, and to lay the foundation of future disease These Pills, safe in action, and effective in result, should be taken at certain periods, and the issue will be marvellous both to the young and the middle aged. They prevent nervousness, hysterics, dropsy, and a host of similar serious disorders, by expelling all impurities from the system, therefore none should ver be without them.

Coughs, Colds, and Asthmas,

No medicine will cure colds so quickly as these Pills, when of long duration or settled on the chest, or even though it has assumed the first stage of asthma, they may be relied on as a certain and never failing cure, particularly if the Ointment be well rubbed into the chest and throat night and morning. If this catch the eye of any asthmatical person so bad as even not able to lie down in bed, let him well use these two preparations for only a week, and the result will be marvellous.

Blood to the Head--Diseases of the Heart.

More persons die suddenly from diseases of the heart than the unlearned suppose: in such complaints, the bowels should always be kept well open, as also where there is a tendency of blood to the head. These celebrated Pills purify the blood in an extraordinary manner, and should be taken in copious doses when such symptoms occur, taking care not to overload the stomach; by this means all danger is quickly averted.

Children's Complaints.

It is not generally known, but such is the fact, that children require medicine oftener than their parents, Three-fourths of the children die before they attain the age of eight years. Let mothers, then, be wise, and give to their children small doses of these invaluable Pills once or twice every week, in such quantity as may act gently upon the system twice in the twenty-four hours. For infants, a Pill may be crushed and given as a powder in a little water The gross humors that are constantly floating about in the blood of children, the forerunners of so many complaints, will thus be expelled, and the lives of thousands saved and preserved to their parents.

Holloway's Pills are the best remedy known in the world for the following diseases:

Ague	Dropsy	Inflammation	Sore Throats
Asthma	Dysentery	Jaundice	Stone and Gravel
Billious Complaints	Erysipelas	Liver Complaints	Secondary Symptoms
Blotches on the Skin	Female Irregularities	Lumbago	Tic-Douloureux
Bowel Complaints	Fevers of all kinds	Piles	Tumours
Colics	Fits	Rheumatism	Ulcers
Constipation of Bowels	Gout	Retention of Urine	Venereal Affections
Consumption	Head-ache	Scrofula, or King's Evil	Weakness, from whatever cause
Debility	Indigestion		
	Worms of all kinds		

☞ There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each Box. n14

JAYNE'S EXPECTORANT.

Thirty years of experience has demonstrated beyond the shadow of a doubt, that JAYNE'S EXPECTORANT excels every other remedy for the cure of

ASTHMA,
BRONCHITIS,
CONSUMPTION,
COUGHS AND COLDS,
CROUP AND WHOOPING COUGH,
SPITTING OF BLOOD,
AND ALL PULMONARY COMPLAINTS.

While many other Remedies have been lauded and extolled, and achieved a temporary reputation, JAYNE'S EXPECTORANT has continually increased in popularity until now there is scarcely an inhabitable part of the globe where it is not used and highly appreciated. The following are a few of the many Certificates received:

Rev. VALENTINE GRAY, of the Methodist Church, writes from Centerville, Pa.:

Having experienced the beneficial effects of your Family Medicines, I would give it as my opinion that they are the very best I ever had occasion to use, and most cheerfully recommend them to the afflicted. Your EXPECTORANT especially I have found to be a sure cure for COUGHS and COLDS.

Dr. W. W. WINTER, of Milledgeville, Ill., writes:

It is with great pleasure that I can recommend your EXPECTORANT to those suffering from Bronchial Affections, having used it with the most satisfactory results.

Mr. NATHAN PENNYPACKER, of Upper Uwchland, Chester county, Pa., says:

Having been afflicted with ASTHMA and BRONCHITIS, and the treatment of several skillful physicians proving of no avail, I commenced the use of your EXPECTORANT. After taking it for about three months I found myself entirely cured.

Rev. JOHN DOWLING, D. D., Pastor of the Berean Baptist Church, N. Y., writes:

I have long known the virtues of your EXPECTORANT, and frequently tested them on myself and family, when afflicted with COUGHS or COLDS. I believe it to be one of the best remedies ever discovered for these maladies.

Mr. READING DOTY, of Twenty Mile Stand, Warren county, Ohio, says.

Recently I had an attack of ASTHMA, the most distressing of all diseases, and yesterday afternoon, after taking a short ride, I returned home almost unable to breathe. Through the persuasion of my wife I was led to try your EXPECTORANT. The first dose gave instant relief, and after the fourth dose I enjoyed a refreshing sleep, and the next morning arose in better health than for two years past.

Rev. J. J. WALSH, Missionary of the Presb. Board at Futtegurh, Northern India, says:

Your EXPECTORANT was the means under Providence of curing a case of INCIPIENT CONSUMPTION, which had been pronounced incurable by competent medical men.

MAURICE SCHWARZ, of Concord, Wis., says:

When the WHOOPING COUGH prevailed to some extent at our place, the disease seemed to baffle our physicians. In various cases the EXPECTORANT was used, and it did not fail to cure.

JOHN NARRIMAN, Esq., of Stewartstown, N. H., writes:

Not long since, a child of mine had a very violent and distressing attack of CROUP, which must have proved fatal had not immediate relief been obtained. I commenced giving your EXPECTORANT, and within three-quarters of an hour the child had taken six teaspoonsful, breathed with perfect ease, a cure within that time having been effected.

Rev. RUFUS BABCOCK, D. D., formerly President of Waterville College, Maine, writes:

For more than a dozen years I have recommended Dr. D. JAYNE'S FAMILY MEDICINES, and especially the EXPECTORANT. I know that these medicines are highly esteemed and frequently prescribed by some of the most respectable of the regular practitioners of medicine; and I do not hesitate to commend them as a valuable addition to our *materia medica*, and a safe as well as eminently beneficial remedy for the diseased.

DAVID TURNER, of Cassville, Huntington county, Penn., writes:

My son, aged nineteen years, was confined to his bed for for three months, his disease being pronounced by the attending physician to be CONSUMPTION. Failing to obtain any relief from the treatment he had been undergoing, I procured for him JAYNE'S EXPECTORANT, and through its use he has been entirely restored to health.

Mr. JOAN HENRY, of Burlington, Bradford county, Pennsylvania, says:

For two years, my son was afflicted with a disease resembling CONSUMPTION, and during this period was unable to labor. Being finally induced to try your EXPECTORANT, he was completely cured after taking ten bottles, and he is now able to work every day.

Mr. PRESTON EWING, Laconte, Harrison county, Indiana, writes:

Being afflicted with BRONCHITIS for the space of three years, to such an extent that I was obliged to relinquish the teaching of Vocal Music, and failing to obtain any relief from the physicians whom I consulted, I gave the EXPECTORANT a trial. After using it for a few weeks I was very much relieved; and by its continued use my throat is now ent rely clear of any disease.

☞ This EXPECTORANT, and *all* of DR. D. JAYNE'S FAMILY MEDICINES, are sold by CURTIS & MOORE and LANGLEY BROS., Victoria, from whom may aslo be obtained *gratis, Jayne's Medical Almanac and Guide to Health*. ju15-1m
